

USC UROLOGY

Our Leadership in Action

USC Urology has long been regarded a world leader in urology, drawing upon our surgical excellence and innovation, multidisciplinary approaches to advanced tertiary urologic care, cutting-edge bench-to-bedside research, all in the setting of individualized, compassionate patient care. Using the most advanced technology and applying world-renowned experience and research, USC urologists offer distinctive services that include pediatric urology and stem cell therapies, female urology and incontinence surgery, genito-urinary reconstruction and prosthesis and scar-free, single-port laparoscopic surgery.

U.S. News & World Report ranked USC Urology among the top 10 in the nation for urology in their 2021-2022 rankings.

FOSTERING NEW INNOVATIONS FOR OPTIMAL OUTCOMES

USC Urology is a community of excellence that is rapidly growing in size and sophistication.

We are composed of board-certified urologists, radiologists, oncologic surgeons and specialized pathologists who are proficient in the most advanced diagnostic, surgical and recovery approaches. All are committed to achieving excellence in patient care, advancing medicine and educating the physicians of tomorrow through resident and fellowship programs.

With superior expertise in prostate cancer surgery, our team is one of the few in the country that provides cutting-edge, comprehensive treatment options including the latest robotic and laparoscopic techniques, traditional surgery, radiation therapy, seed implants and focal therapy.

Our pediatric urologists practice at Children's Hospital Los Angeles and comprise one of the most experienced teams in the country — offering a complete range of advanced, open and minimally invasive procedures.

USC UROLOGY
